

Practice Group Public Procurement Law

We offer comprehensive advice to contracting authorities/entities and bidders: The advice to contracting authorities/entities includes the drafting of the calls for tender, the support in the tender procedure including the review and adjustment of the award. We support contractors throughout the entire tender procedure, from the initial bid to the assertion of, or defence against, claims before the competent authorities in

order to ensure the bid's success. In particular our focus on construction contract law ensures that we address public procurement law and building industry issues as well as cartel and competition law and are able to prevent potential risks. Interdisciplinary advice combined with years of experience of members of our Practice Group enable us to work with utmost practical orientation and follow a solution-oriented approach.
